## **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Leland Jordan on 12/21/2003.

The application has been amended as follows:

In claim 1, line 5, before "also having", delete "having".

2. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach or fairly suggest the claimed invention. U.S. Patent No. 4,178,345 to Terk does not teach or fairly suggest notched side flanges. U.S. Patent No. 6,086,827 to Horner et al. does not teach or fairly suggest notched side flanges. U.S. Patent No. 4,599,314 does not teach or fairly suggest notched side flanges. U.S. Patent No. 5,948,363 to Gaillard shows sidewalls that are notched but does not teach or fairly suggest notched side flanges or the base plate with a zero-backlash hitch. U.S. Patent No. 5,816,406 to Jupille et al. does not teach or fairly suggest a zero-backlash hitch.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Application/Control Number: 10/037,512
